Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 8-28 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 8-28 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 8-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The term “non-flat projecting portion” does not appear to be supported by the specification. Segment 31b (of Applicant’s seal), which equates to the “non-flat projecting portion” of the claims, is actually flat. But, it projects from lower portion that constitutes the perpendicular first flange portion (part that 6 is attached to). While the entire leg projecting downwardly from the cylindrical flange 31a is non-flat, the portion that would actually constitute the projecting portion (as defined by the claims) is only the angled section (i.e. in Fig. 1, or cylindrical section in Fig. 2) of the leg and is flat.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 8-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Hajzler.

Art Unit: 3673

Hajzler discloses a sealing device (e.g. Fig. 1) comprising a first seal element 8 having an L-shaped metal core with a flange 8 and cylindrical portion 7, and a second seal element 2 having an L-shaped metal core with a flange 2 and cylindrical portion 3. The elements face opposite each other to form a space. Element 8 has an elastic seal portion 11. Element 2 has a magnet-based encoder 4. Element 8 includes a projecting portion (near line 8) that extends beyond the side of the flange 8 and is folded and overlapping a portion of the cylindrical portion. The projecting portion is non-flat in that it bends right near line 8. The non-flat portion is also at a different level than seal portion 11. And, the angled part of section 8 is considered folded and overlapping in the same respect that Applicant's Figure 1, section 31b is folded and overlapping portion 31a.

Response to Arguments

4. Applicant's arguments filed 10-14-05 have been fully considered but they are not persuasive.

As stated above, Hajzler discloses a non-flat, overlapped, and folded portion in a similar manner as Applicant's. Looking at Figure 1 of Hajzler, element 5 has a cylindrical portion 7 and a perpendicular flange portion (lower most section of 8 that is perpendicular to 7 and closes to lips 11, 11'). The bent portion connecting the flange 7 to the lower part of 8 is considered the non-flat projecting portion.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
